

Complete Clinical Documentation Solution

NetPracticeEHR™

Complete Clinical Documentation Solution
by Noteworthy Medical Systems

Experience the speed, ease
and comprehensiveness of
Just 3 Screens™ technology
with NetPracticeEHR™.

It takes sophisticated and cutting-edge technology to create software so easy to use! NetPracticeEHR™ is flexible enough to meet the needs of small medical practices while still addressing the unique challenges of large community health centers and beyond.

NetPracticeEHR allows physicians to do more effectively and efficiently what they do best: **practice medicine**. Using our intuitive point-and-click tools, a patient encounter is completely documented in Just 3 Screens™, with the information you need always right in front of you. Unlike traditional template interfaces, our Intelligent Template Technology™ enables unprecedented levels of structured data to be captured at the point of care. That translates into better patient care and more control over your practice.

You can feel confident investing in NetPracticeEHR. New clients see their full patient load in four days or less, giving us the enviable track record of 100% provider adoption.

NetPracticeEHR 6.0 is CCHIT CertifiedSM
for Ambulatory 2007

Achieve More.™

NetPracticeEHR™

features

- ▶ **2007 CCHIT CertifiedSM**. NetPracticeEHR™ 6.0 is CCHIT Certified for Ambulatory 2007.
- ▶ **Just 3 Screens™**. Quickly and fully document your patient encounters.
- ▶ **Intelligent Template Technology (ITT)™** not only provides exceptional clinical decision support, it quietly works in the background to gather an industry-leading amount of discrete, reusable data.
- ▶ **Clinical Analysis Reporting Engine (CARE)™** connects to the data that ITT™ gathers and quickly indexes it for unlimited and unparalleled analysis, reporting and research possibilities.
- ▶ **TRUE ePrescribing**. NetPracticeEHR™ is the ONLY EHR to provide an ePrescribing product that is fully integrated into the encounter workflow and documentation. Prescriptions are ordered as a result of proper documentation within the encounter—no extra steps or passwords.
- ▶ **NetPracticePM™** integrates seamlessly with NetPracticeEHR™ for a complete solution.
- ▶ **E & M Calculator** calculates the appropriate E & M codes for maximum reimbursement for your practice and helps mitigate your audit risk.
- ▶ **Rhapsody**. NetPracticeEHR™ interfaces seamlessly with numerous healthcare applications, databases and external systems through Orion Health's award-winning Rhapsody interface engine, which can process more than 50,000 messages per hour.
- ▶ **Multi-user chart access**. HIPAA-compliant NetPracticeEHR™ captures all simultaneous chart entries and immediately alerts providers of new data.
- ▶ **Multiple data input methods**. Data integration through template (ITT™), scanning, voice-to-text, transcription or handwriting recognition.

benefits

- ▶ Reduces medication errors
- ▶ Promotes preventative healthcare
- ▶ Integrates patient education
- ▶ Creates more efficient clinical workflow and referral management
- ▶ Provides clinical decision support
- ▶ Enhances communication with instant messaging
- ▶ Speeds ROI attainment through 100% provider adoption
- ▶ Automates charge capture and helps mitigate audit risk
- ▶ Increases revenue per visit/number of visits per hour
- ▶ Simplifies prescription orders
- ▶ E&M Calculator ensures you don't underbill
- ▶ Medical necessity checking enables viewing of clinical & billing guidelines at the point of care
- ▶ Exclusively features next generation data tools ITT™ and CARE™
- ▶ Provides unprecedented levels of data reuse
- ▶ Enables evidence-based medicine
- ▶ Provides complete chart access audit trail
- ▶ Audit and certification capabilities
- ▶ Automates flow sheets and forms
- ▶ Facilitates clinical research and trials recruitment

Quickly and fully document your patient encounters.
